ALL MEMBERS PTS COMMUNITY: Traffic on Mercer Street has increased considerably over the last few years and this has caused increasing concern over the safety of the members of the Seminar community who must cross Mercer Street each day. Steps are now being taken to request permission of the State to install a traffic light at the crossing. Accordingly, on 6 and 7 November there will be traffic and pedestrian counters at the Seminary crossing of Mercer between the Speer Library walk and the main driveway. All members of the community are urged to cross at this point on these days, rather than at the Carriage House or other areas. W.E. Lawder.

URGENT!! SUBMIT YOUR LOCATOR CARD NOW! We recently received a call for a student whose parent had just been sent to the recovery room following surgery. Fortunately, in this case we managed to locate the student. The irony in this particular case was that several days before the student was asked if a locator card had been filed at the switchboard and the reply was "No," with a promise that one would be filed as soon as possible. *Have you submitted a locator card to the switchboard? Next time we might not be so lucky.* J. Lang.

ONLY FOR THE DARING: Have you an adventurous spirit? Do you enjoy aquatic challenges? Do you marvel at natural phenomena (pickle projectiles, flying blintzes, half-eaten cheese sandwiches, etc.)? Would you be interested in being liberally paid ($2.95 per hour) for engaging in such harrowing adventures? If so, the Fellowship of the Dish-Pit still has openings for the following meals: Breakfast - Mondays and Thursdays; Lunch - Thursdays and Fridays; Sinner - Saturdays. See Dan Willson (123 Brown Hall) to enlist and be outfitted with your apron. D. Willson.

ALL FIELD ED STUDENTS: If you wish your Field Education recorded on your transcript, we MUST have a registration card AND a current placement description. We will send a list of all students in Field Ed to the Registrar SOON. Please stop by the Field Education Office as soon as possible to be sure that all your papers are in order.

I do not have exact figures for the year, but with the fine turnout Wednesday we must be very near the quota requirement for 1979. There were 163 pints of blood donated Wednesday, which represents 88 donors from the Seminary community and 75 from small local businesses which do not have facilities for a bloodmobile. URGENT!

ALL PERSONS OF THIS CAMPUS SHOULD REMEMBER THAT THERE IS AN ALARM NOTIFICATION SYSTEM LINKED WITH FIRE-FIGHTING EQUIPMENT IN SEMINARY DORMITORIES.

Recently a hose in one of the dormitories was removed and that sent an immediate signal which sounded the alarm bells, notified the Princeton Police Department and, through them, campus authorities, as an emergency summons, just prior to the call for fire equipment and for the volunteers of the Fire Company.

It is, of course, never in the interest of safety to tamper with any fire-warning or fire-fighting apparatus. With this protective alarm tie-in, any dislodgement becomes an emergency signal for help. Police and Fire equipment respond on an emergency basis to alarms sent in from dormitories. False alarms not only are costly; they could result in injury or in fatal accidents.

REVIEW PROCESS IN FIELD EDUCATION

Students and supervisors shall have recourse to a Review Committee on Field Education on all matters which are not adjudicated by staff and supervisors to the satisfaction of the student or of the supervisor.

The Review Committee shall be composed of the three professional staff members in the Department of Field Education and the three students who comprise the Advisory Committee to Field Education. This Committee will review all cases of alleged discrimination. It may also review other kinds of problems on a case by case basis as referred, e.g.: Differences between two students in the same Field Education placement; inadequate or infrequent supervision; competition for the same placement; student continuing contact in church of previous Field Education relationship.

The Committee recognizes that all supervisors are volunteers in the Field Education program. It also recognizes that such supervisors have indicated a willingness to accept and to supervise students without discrimination. The Department of Field Education negotiates placements and placement descriptions. In situations where the Department is not able to adjudicate problems satisfactorily, it can discontinue a placement relationship and has done so.

The Review Committee will review any situation in which the following things are known to occur:

1. Placement criteria are set down for the position in regard to age, sex, race or physical handicap.

2. A student has reason to suspect discrimination on the basis of one of the above.

3. A supervisor repeatedly turns down a person of a particular category; for example, a woman.

4. When termination of a position is proposed by the student or the supervisor unilaterally.

PROCESS

A situation may be reported to the Field Education staff by a student or supervisor or the staff may discover the situation. Contact is made with the supervisor or the student to ascertain the facts. This initial contact should be by the Field Education staff. The staff will adjudicate the situation and will bring such to the Review Committee in keeping with the guidelines above.

The supervisor and/or student may be invited to meet with the Review Committee and will, in any case, be advised of the results of the Committee's deliberations. The Committee will make its recommendations for action to the Director of Field Education.

The Review Committee will meet periodically throughout the academic year. It will also meet on call according to requests for review. The student members of the Field Education Review Committee for the 1979-80 academic year are: Travis Adams, Ina Boyd and Mary Crist Brown.
